# PARTS

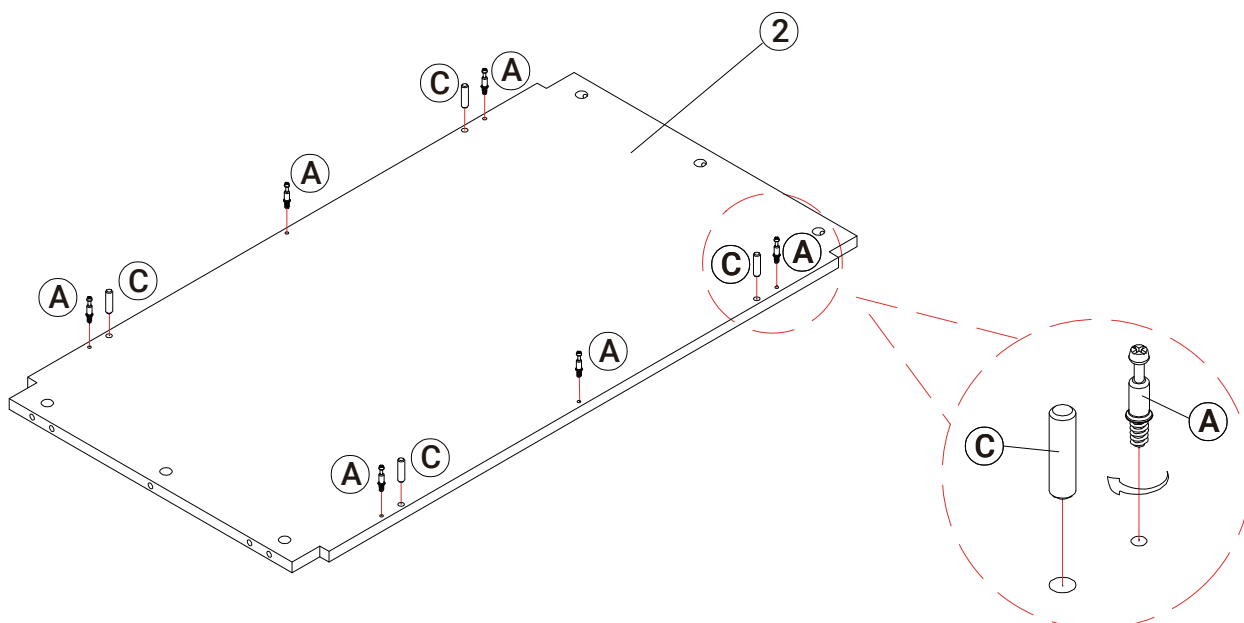

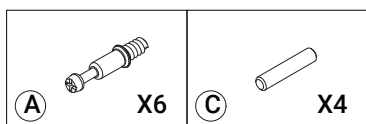

# HARDWARE

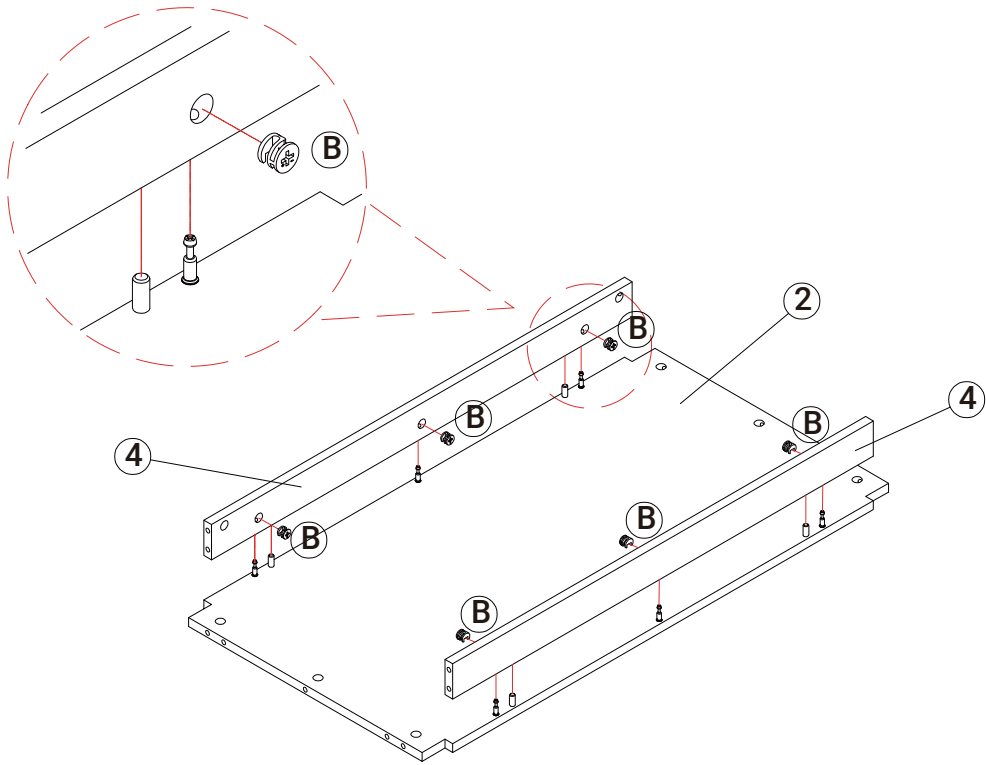

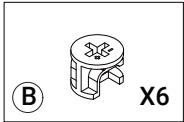

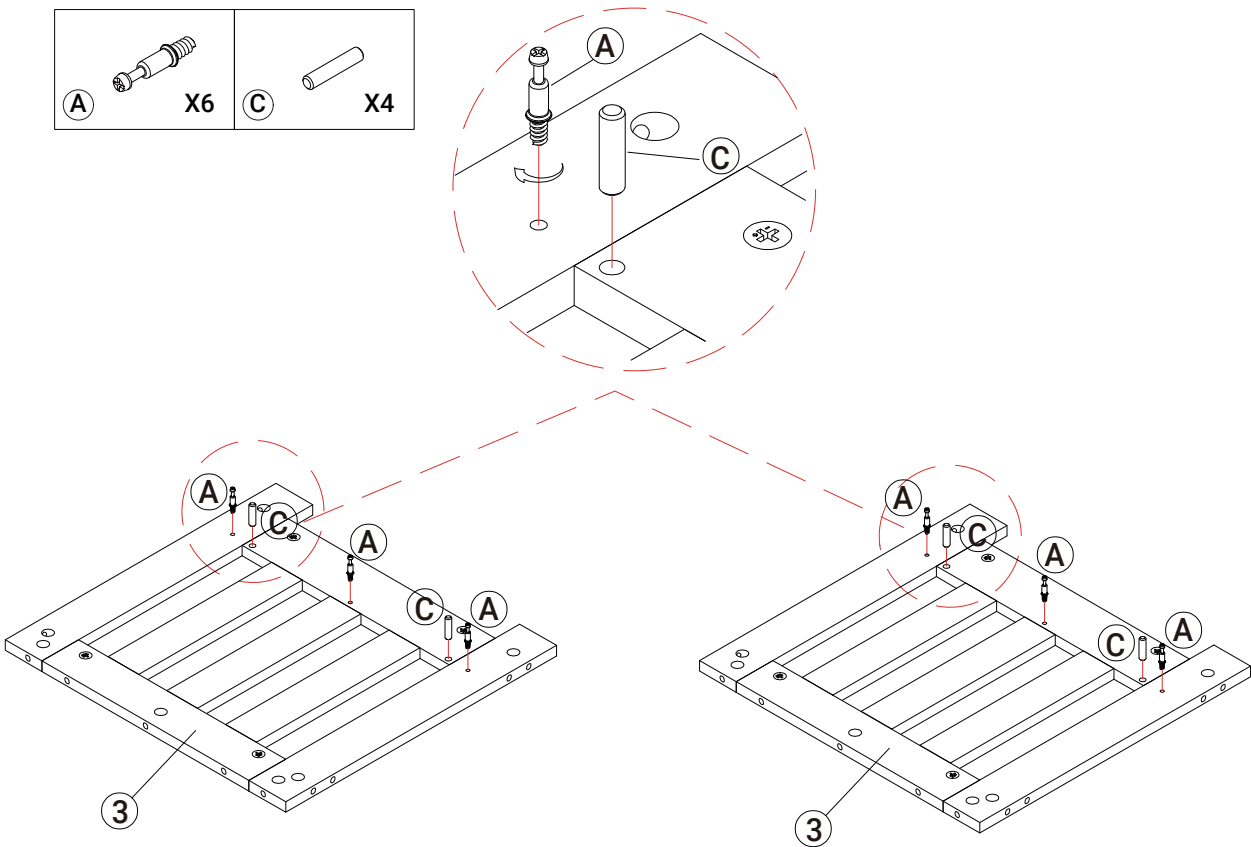

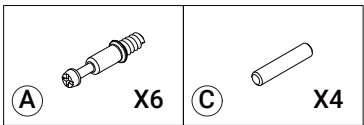

**Step 1** | Next locate the bottom shelf (2) and prepare it by screwing 6 hex screws (A) into the designated holes and then place 4 wooden dowels (C) in place.

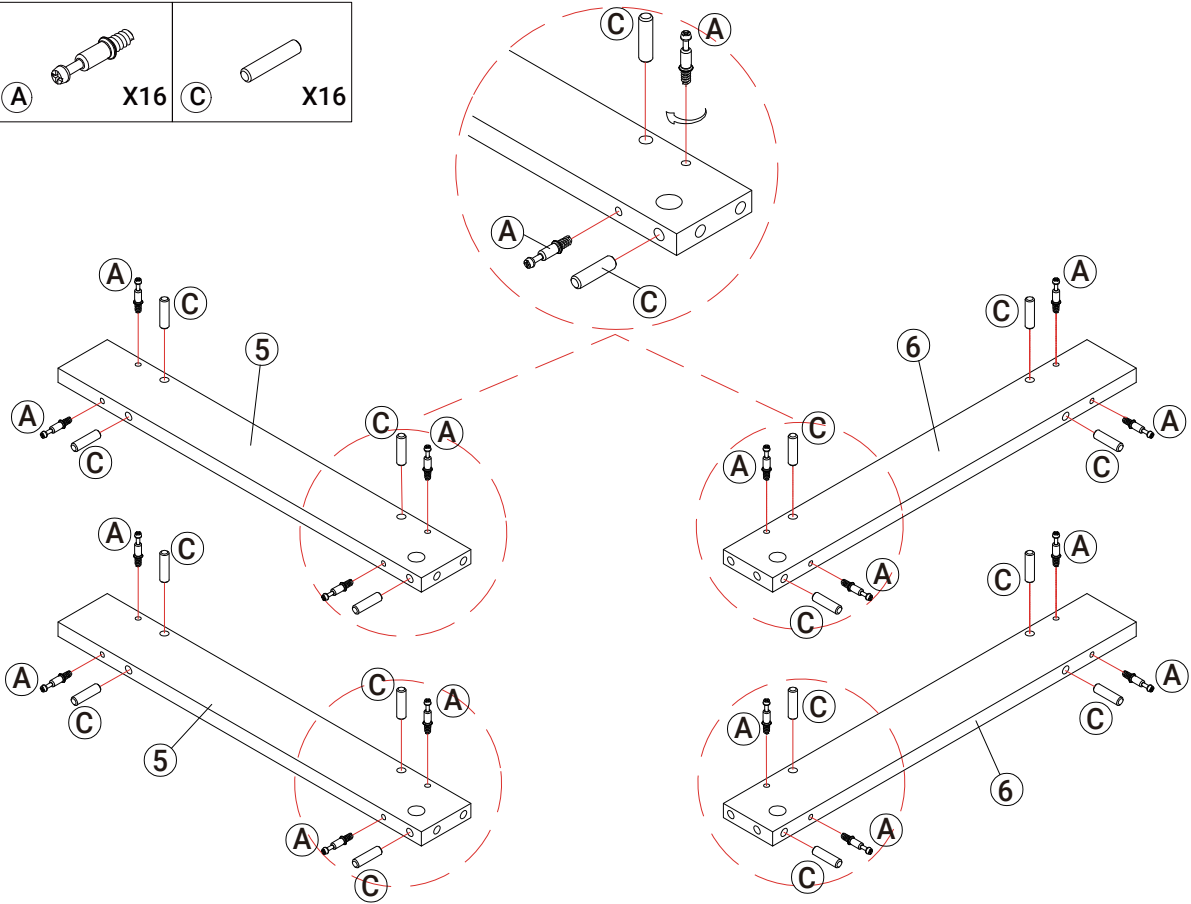

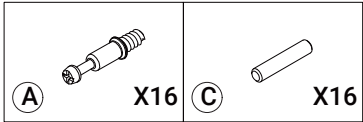

**Step 2** | Next secure two base boards (4) to the bottom shelf by aligning the holes in place and then securing in place with the cam locks (B).

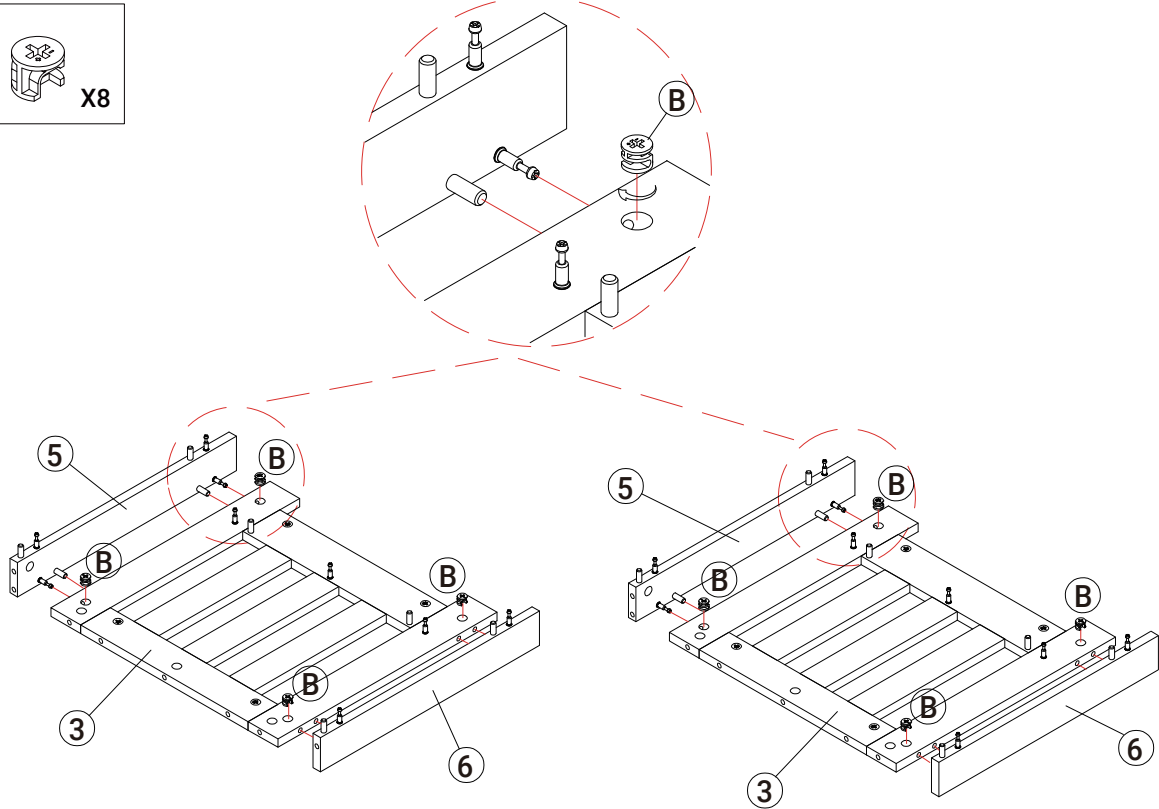

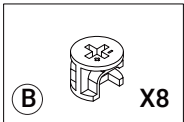

**Step 3** | Next prepare the side supports (3) by screwing 3 hex screws (A) into each one and then placing 2 wooden dowels (C) into each.

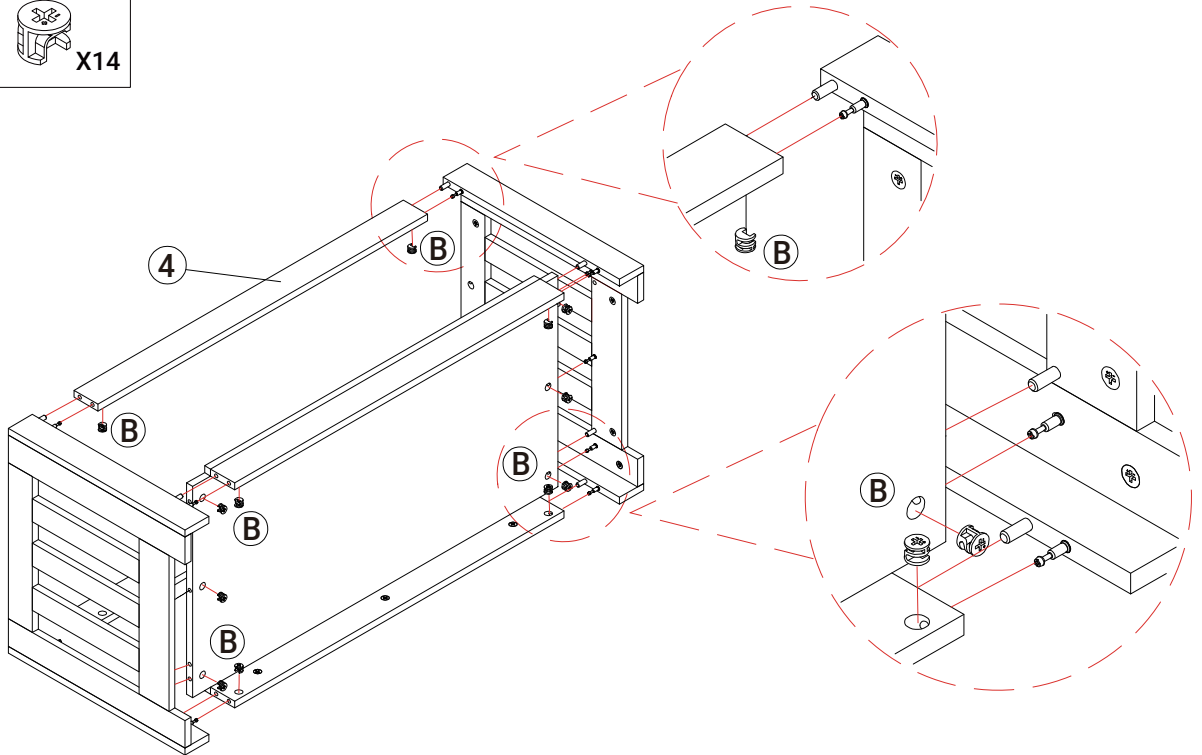

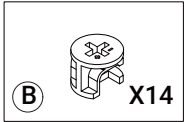

**Step 4** | Next prepare the leg support beams (5 and 6) by screwing 4 hex screws (A) and 4 wooden dowels (C) into each support beam.

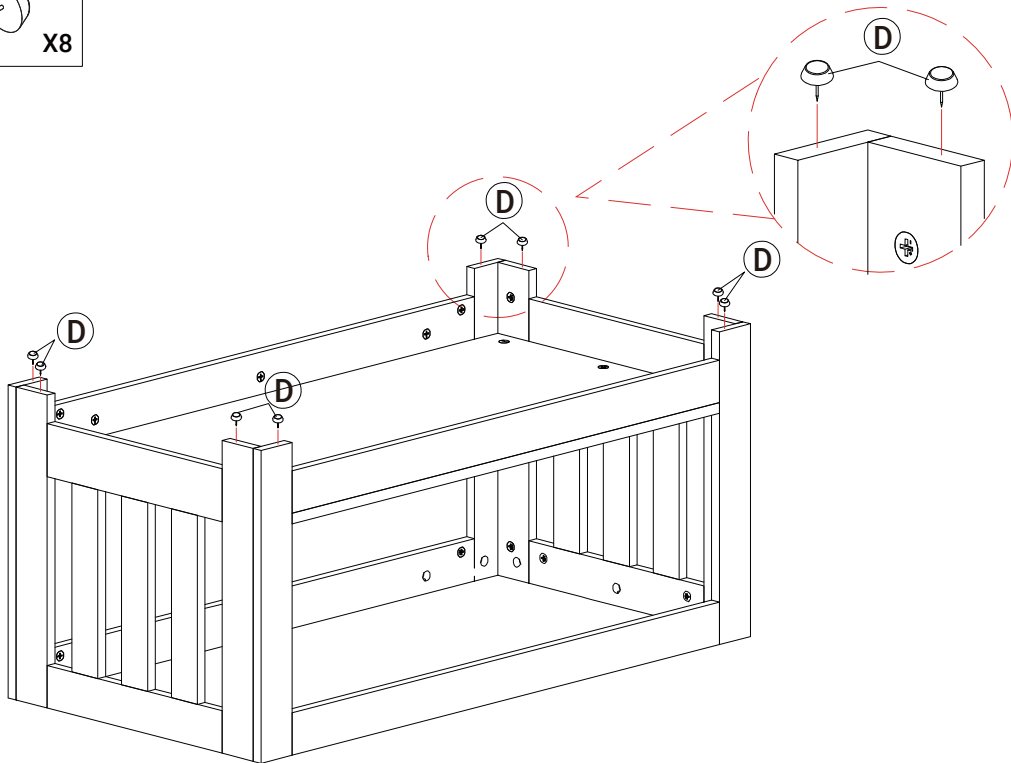

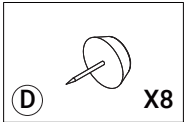

**Step 5** | Next attach the leg support beams (5 and 6) to the side supports (3) by aligning the holes and then securing in place with the cam locks (B).

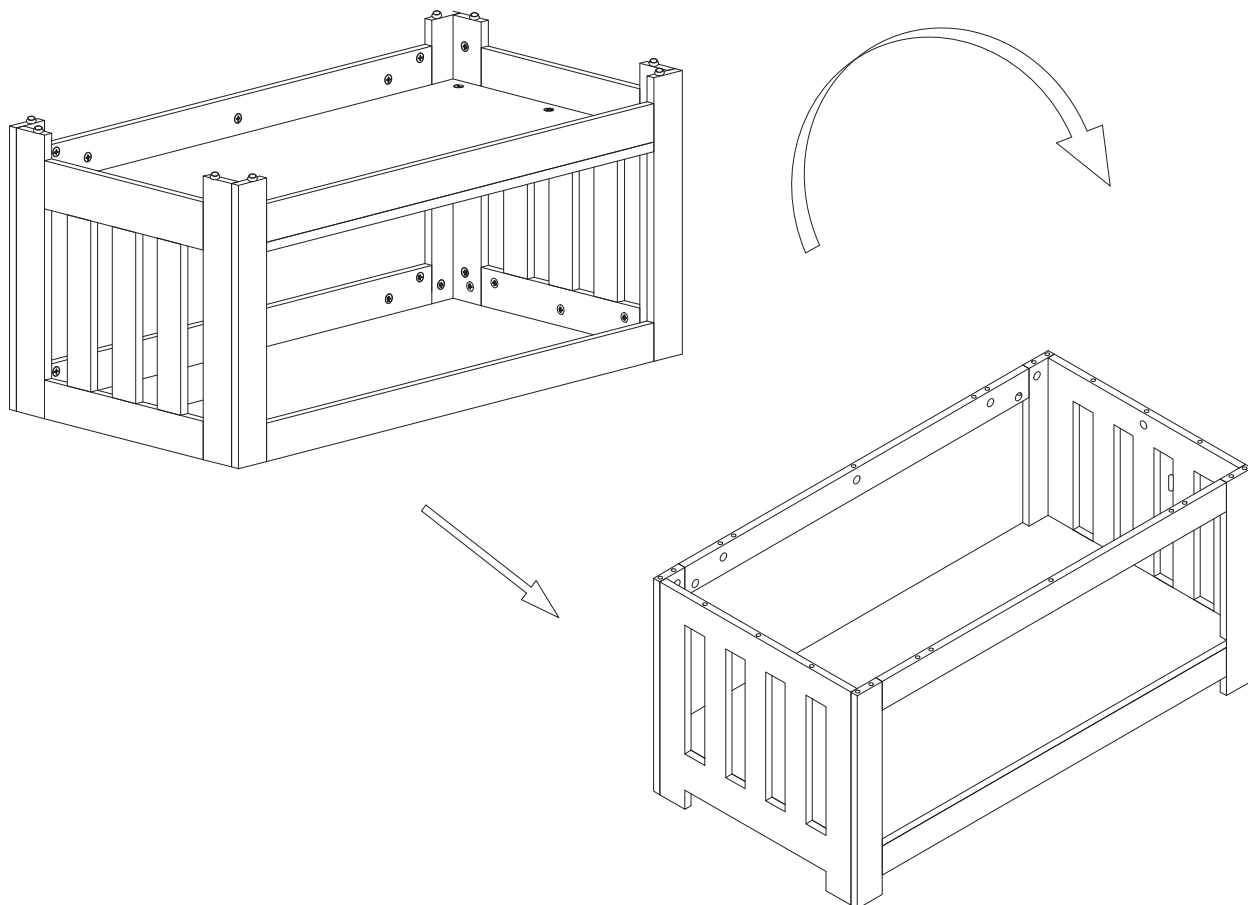

**Step 6** | Next, assemble the base of the table by taking the pieces completed in the last step, the bottom completed in step 3 and two base boards (4) and aligning them together and locking in place with the cam locks (B).

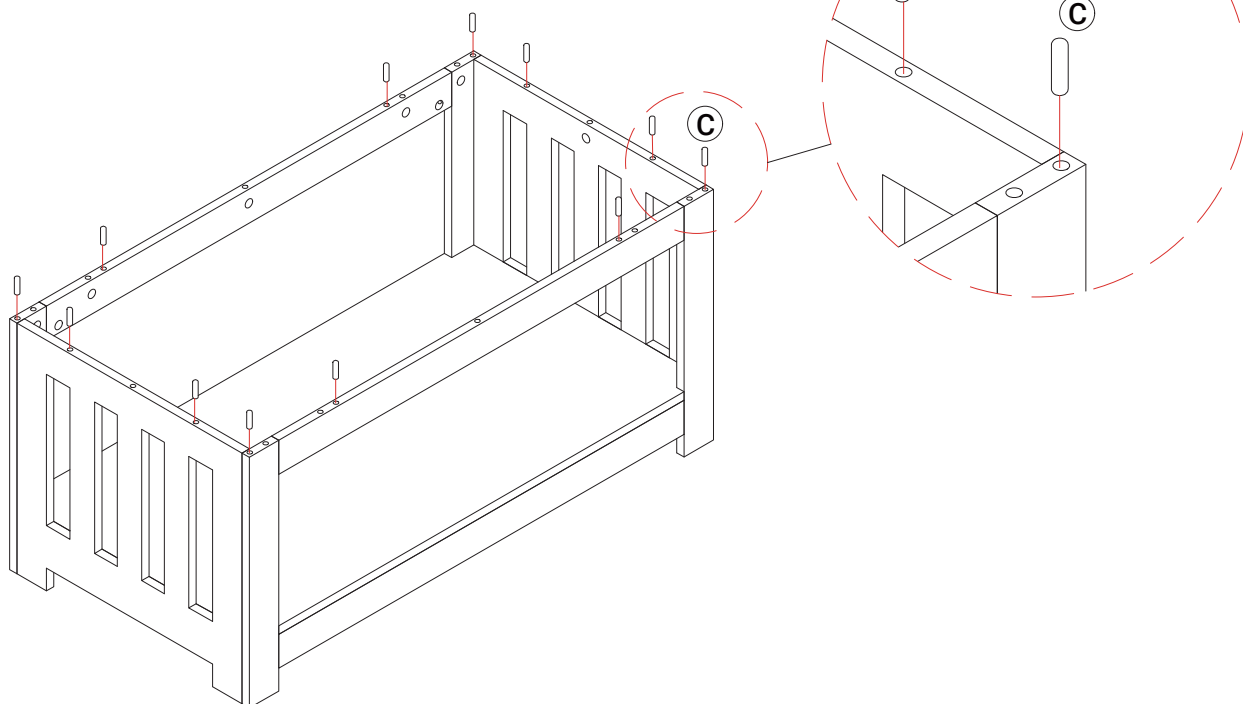

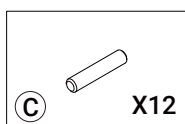

**Step 7** | Next, add the feet to the bottom of the table.

**Step 8** | Before installing the table top, make sure to flip it upright to prevent damage to the table.

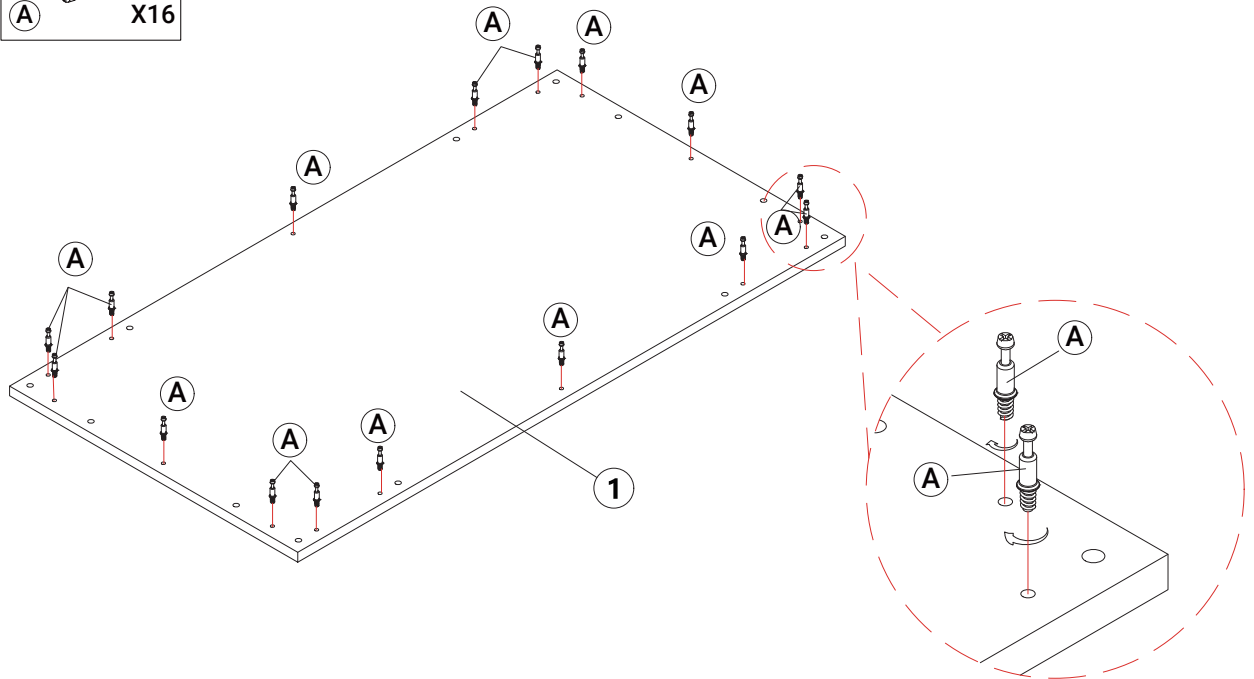

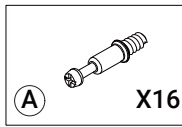

**Step 9** | Place 12 wooden dowels (C) in place. **IMPORTANT:** Make sure not to hammer any wooden dowels in to avoid them being punched through the top.

## Step 10

Start by locating the table top (1) and prepare it by first screwing 16 hex screws (A) into the designated holes .

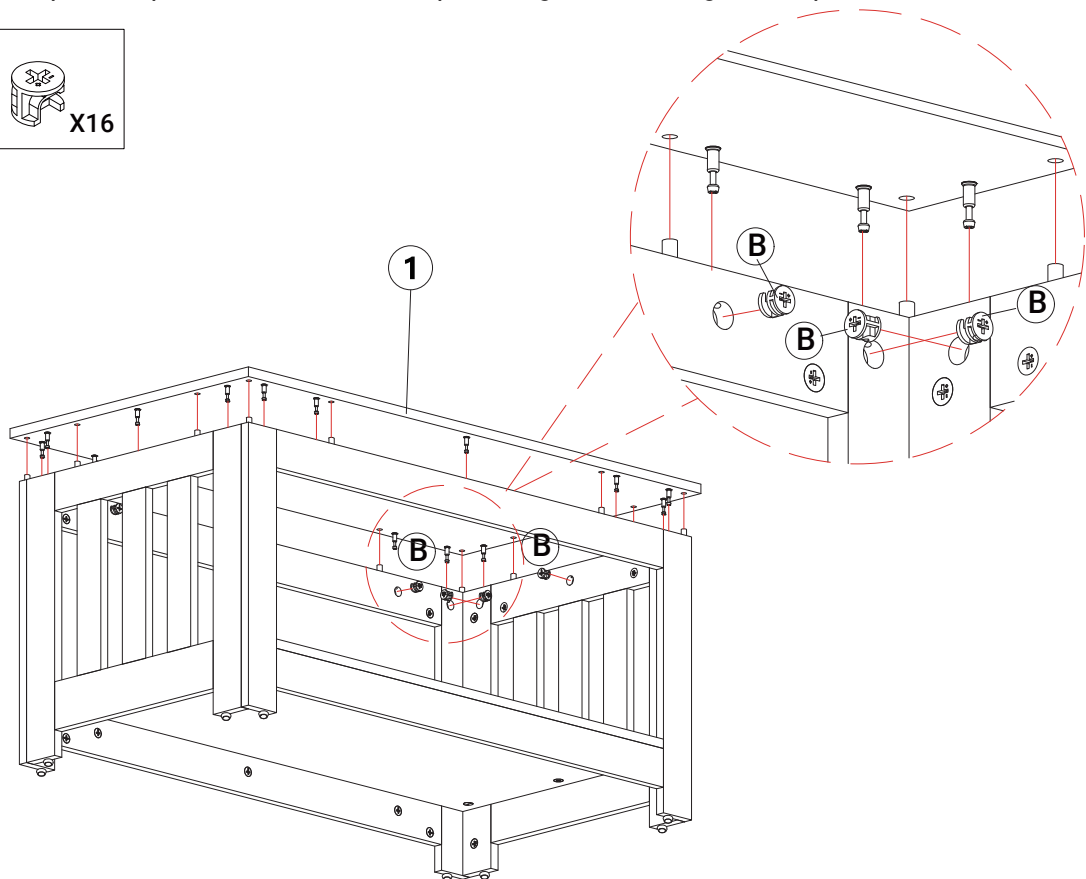

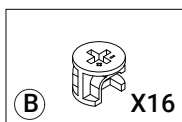

**IMPORTANT:** Make sure not to hammer any hex screws in to avoid them being punched through the top. Also, make sure to assemble on a flat, soft surface such as carpet.

## Step 11

Finally, carefully add the table top to the table and secure in place with the cam locks.

**IMPORTANT:** Be very careful aligning the top and make sure not to use any excessive force to put it in place in order to avoid punching holes through the top of the table.

**Step 12** | Now that all your hard work is done, it's time to relax and enjoy your craftsmanship!
