⑮ Drawer bottom panel	⑯ Supporting leg	⑰ Middle foot			G. Long pitch self-tapping screw (#35) 8× 	H. Puller screw 2× 
					I. Corner Bracket 4× 	J. Handle 2× 
					K. Screw 24× 	L. 25 square thickened washer 5× 
						M. Dual-purpose Screwdriver 1× 
					Model GF570-1604 Size 1660W*400D*430H	

Step 1

Attention: First of all, put a piece of carton or rug on the floor, and then begin to install the panels, so as to prevent the parts from scratch.

Note: The four circled ones in the middle of the base plate are 60MM long three-in-one screw.

Step 2

Step 3

Note: This step turns the bottom plate over, and then (16) (support foot) x4, (17) (middle foot) x1, and (7) (enclosure plate 1) 1 are installed on in order as shown in the figure.

Note: When installing the support screws, twist half of each one first and then tighten all four.

Step 4

Note: This step lock the three-in-one screw from the back.

Step 5

Step 6

Note: When installing the side panel, first install the enclosure 2 corresponding to the left and right of the side panel, the left panel corresponds to the left enclosure 2 and the right enclosure 2, note that the back is flat and the front has a beveled edge, this is the left side panel installation method, the right side is consistent with this.

Step 7

Step 8

Step 9

Note: This is one of the installation method for the drawers, the other drawer installation is the same as this.

Step 10

Step 11

Note: After the installation of the drawer, determine whether the left drawer or the right drawer according to the drawer panel

Step 12
